

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I am a babysitter, I carry a tracfone with me, the first thing I do is give young parents the phone and say here I can reach you anytime, you can check with me anytime, most parents call home at least once, Yep at bedtime, but I know that I can reach them anytime, if you raise the rates then that won't be possible. I feel secure knowing I can reach the parent. My husband feels secure that on the way home I can reach him.

Keep the USF Fair!

Sincerely,
